

STEPS TAKEN
FOR FIGHTING
BOLL WEEVIL

Los Angeles, Calif., Sept. 16.—Adequate quarantine legislation for protection of the cotton industry in the southwest was planned at a meeting conducted here yesterday by G. H. Hooke, director of the California department of agriculture. Cotton growers, state officers and agents of commercial interests attended the hearing. California, Arizona and Lower California being represented.

Mr. Hooke related out the growth of the cotton industry in the southwest in a few years from nothing to investments representing \$10,000,000, with promise of greater expansion, and emphasized the need of legislation to keep from this section the boll weevil and other pests which infect the crops in the southern states, Egypt and Mexico.

G. of C. Committee Meets.
A committee was appointed to consider quarantine proposals and legislation.

The cotton cooperative committee of the Los Angeles chamber of commerce also met here today. Plans were made to urge upon Arizona the need of greater appropriations for the protection of the industry upon New Mexico the desirability for more stringent fumigation laws and upon the federal government the passing of protective measures.

A Bunch Of Scandal Mongers

TLL WAGER a ten spot they are the best looking scandal mongers in El Paso when they get here," said E. F. Maxwell, manager of the Crawford theater, as he gazed at a group picture of a bunch of girls in "The Scandals of 1919." The company will be here Friday, Saturday and Sunday and Maxwell doesn't know why the picture was sent him. He admits that he is too old to want to keep it as a souvenir and he doesn't believe it came from any of the girls themselves, as he doesn't recognize any of the faces—at least he says he doesn't and he must have been telling the truth, for Mrs. Maxwell was looking on when he opened the picture and was talking about it. Well, anyhow, here's the picture; what do you think of them as scandal mongers?

Many Hungarians Are
Slarving; National Charges

Budapest, Hungary, Sept. 15.—"No work and high prices are making Hungary a trouble center," said count Emeric Crouy Chanyi, who claims to be the most legitimate candidate for the throne of Hungary.

"We have here upwards of 100,000 workmen who are either without work or else have to work for 1000 crowns a month, the price of a pair of shoes," he continued, "and besides them, we have 100,000 government employees left over from old Hungary whose pay is about that of the workmen. Then we have 50,000 army officers who insist that they be paid. Then there are a large number of laborers from the provinces given to Serbia, the Czechs and the Rumanians, who have no means of livelihood, having been driven from their lands."

"The solution for these people is to emigrate, but they have not the money," he said, "and the government has provided the land they would need to learn to farm and would need capital to build houses and buy machinery. The factories cannot start because of lack of coal and raw materials."

"Hungary has lost more than any nation in Europe by the peace treaty. In addition she has had two costly revolutions. It is no wonder our minds are deranged."

"It would be a charity if our surplus population was helped to emigrate to South America or some country where it could start life anew."

WOMAN'S CRIES WAKE DOCTOR;
2 SHOTS FIRED AT BURGLAR

Mrs. J. Walter Christie was awakened early Wednesday at her home, at 2704 Pershing drive, by what she thought was restless sleep on the part of her little daughter. But looking out the window, she saw a shadow which closer observation showed was a tall man trying to open a window of the home of Dr. R. E. Pringle, next door.

Mr. Christie is out of town and Mrs. Christie ran back to her sleeping porch and screamed. Dr. Pringle heard her and ran for his revolver while the would be burglar ran for safety. The doctor fired two shots, but ineffectively. The burglar got away.

New Mexico Third Party Convention Call

A Mass Convention of the Farmer-Labor Party and of the Committee of Forty-Eight, who have united in one political organization, is hereby called to be held in the LABOR TEMPLE AT ALBUQUERQUE, NEW MEXICO, ON MONDAY, SEPTEMBER 27TH, 1920, at 2 p. m., for the purpose of nominating a presidential and state ticket for the coming election.

All persons who believe that there is no essential difference between the old parties, and who realize that neither the Republicans nor the Democrats offer any real solution of the economic problems confronting this country, all those who believe in the repudiation of Palmerism and Burlesonism, all who sense the necessity of co-operation between the farm workers, the hand workers and the brain workers in order to eradicate special privilege from the government and the industry of America, all who believe that the time has come to elect to office representatives of the exploited rather than business agents of the exploiters, are herewith cordially invited to attend.

Those intending to take part in the convention are requested to communicate their names and addresses to the undersigned committee at its temporary office, southeast corner Gold Avenue and Third Street, Albuquerque, New Mexico.

Church Fights Divorce
Law Proposed in Italy

Rome, Italy, Sept. 15.—A law to permit divorce in Italy proposed by the Socialist deputy, Marangoni, has roused both protest and approval in the Clerical and Socialist camps.

Under the proposed law divorce would be permitted in consequence of separation for three years in the case of those who have children, two years in the case of those who have none.

Dissolution of marriage could also be asked by a husband who, having been absent on military service, or for the execution of civil or philanthropic duties on the occasion of some national calamity, could prove that during his absence his wife committed adultery.

Reasons for separation of married persons legalized by the proposed law include: Mental infirmity, declared to be incurable, rendering married life dangerous or intolerable; desertion on the part of husband or wife; infliction of a penal sentence carrying the interdiction of civil rights; and habitual crime or immorality.

Ally injurious to the honor of the family.

The idea of the institution of divorce is so strange to many Italians, and it is so strongly opposed by the Roman Catholic church, many are of the opinion that it has but a slight chance of becoming law.

THEY DID IT OVER THERE
AS DEMOCRATS DID HERE

London, Eng., Sept. 15.—British papers are printing almost daily examples of what they term the waste of public funds. A report just issued by the committee of public accounts says the ministry of munitions paid \$12,250,000 for a plant begun in 1917 and which, when the war ended, was only half finished. For this outlay, the committee points out, the country received no benefit whatever.

Waste of nearly \$100,000 is charged by the committee to the admiralty on a scheme for establishing schools to train boys in pneumatic floating. Cases are referred to by the committee where government officers holding responsible positions allotted contracts either to themselves or to firms in which they were interested.

He was a good Judge—
after all

WHEN I WAS A BOY,
I USED to believe,
THE JUDGE next door,
WOULD PUT me in jail,
FOR PLAYING hockey,
OR SWIPING apples,
AND I really believed,
WHEN HE WAS around,
AND EVEN today,
I'M A little scared.
OF THE stern old boy,
SO IN his office,
THE OTHER day,
I HAD to walk
AND WANTED to smoke,
AND I was afraid.
THE JUDGE would get sore,
BUT I took the chance,
AND LIT a cigarette,
AND THE judge came in,
AND LOOKED at me,
AS THOUGH I'd been caught,
BURGLING HIS safe,
AND HE came up,
WITH A solemn frown,
AND SAID, "Young man,
NO SMOKING here,
UNLESS THE old boy,
IS SMOKING too."
AND DARNED IF he didn't
SMILE AND say,
"GIVE ME one of those,
SATISFY CIGARETTES."

The Certain-teed Guarantee as a Basis for Estimating Roofing Cost

The Certain-teed guarantee provides a basis for estimating the approximate cost per year of your new roof. Certain-teed Roofing, Number 3 Heavy, is guaranteed for fifteen years. It usually lasts longer.

Taking fifteen years as the assured life and dividing the unusually low cost of Certain-teed, as compared to most modern types of roofing, by this figure, you readily see how economical Certain-teed is.

The light and medium weights of Certain-teed are also guaranteed, five years for the former and ten years for the latter.

In addition to its durability, Certain-teed is weather-proof, fire-retarding and spark-proof.

And it costs less to buy, less to lay and less to maintain than any other type of good roofing.

See a Certain-teed dealer about roofing. If he hasn't enough of the weight you want in stock he can quickly get more from a nearby Certain-teed warehouse or distributing center.
